

Eastern Victoria Chapter

MX-5 Club Tech day

Saturday, 29 May, 2021

Join us for an informal but very informative tech day.

What does the event cover? Club member Andrew Tate has recently put together an interesting 2.4 litre engine for his NC1. His article in February *mxtra* has created considerable interest so much time will be allotted to this.

In addition, a tour of a plant that deals with re-conditioning engines from vehicles through to huge engines from generators etc. There will also be a variety of other MX-5-related presentation materials so, even if you don't have an NC, don't panic ... lots of interest for all!

Tea and coffee will be available and some finger food will be provided by the Club.

Note this is another event run under the Club's Covid-19 policy which means you MUST pre-register. Following registration, you'll be sent a confirmation.

You are very welcome to bring non-Club members with you but they must also pre-register.

Please register via the [Social/Event Registration](#) page on the Club website (please click on the underlined text above for a link to the registration page, or type: <https://mx5vic.org.au/social-events/events-calendar-online/#!event-list> into your browser).
